NYC Office/ Box 7

WYC Building 7

Scanned by Mike Williams of 911myths.com on 2 April 2009

Bldg 7

Emily Walsh

Ed Campbell

47 story bldg - built for Drexel #
Shibden/Boseley sed

Silverstein
always carried
it

Sat for a few years
1987-88 - Solomon took 74 bldg
1-5, 26-47 + then 11-19

Solly - corp headquarters -
\$800 MM invested

1993 bombing WTC 7 26-47 still lit
did not need Coried etc -
self-sufficient
had hoots for everything

3rd floor lobby - any emergency

gallons
12,000 fuel underground SSB
15,000 fuel " Giuliani
10,000 SEC + FBI

10,000
Silverstein

PA did not have to follow NY rules
worked very close w/PA

Silverstein 6/7 guys SSB 17 guys
3/4 bldg

Shared info + duties w/ Silverstein

1/2 million sq feet SSB

SSB flew chiller plant on top of roof - prefab
26,000 lbs refrigerant in the bldg

sucked in - 1st thing on TV
was in chiller plant - soundproof - big temp

SSB had book like emergency procedures
everyone went to their post

super organized - did fire drills once a month
inact diff situations

people knew how to evacuate -

44th bldg roof office - sent everyone to check
generators -

couldn't see airplane - saw people jumping
after bodies - got to get people out

went to office - in hallway - 2nd plane hit
go through through the office

~~After~~ After 2nd plane - stairs people leaving
orderly

Guy in Silverstein Hardy II - asked them
to call an evacuation

Shen Silverstein - call evacuation - ^{after 2nd} plane before they pl

44th + 45th floor - Tuesday WFC Homeland
teaching - Security Class

47th floor - firemen - set up whole loading dock
as stage - no people came

time fully evacuated +

Radio still working

Ed Campbell - needs to speak to you -
go back into bldg to make a call
wasn't

6 people at phones → loud there - sounded like
a missile, earthquake -
twisting metal

4th floor Cafeteria - emergency door -

No handle on the door - → go to other door

only 2 exits -

Flames/smoke

Exits go to street

9 generators on fire

went to break a window to jump on Con Ed
Smoke etc

Wrapped heads w/ towels - + went down
the smoke staircase
get down

Generator room burning

When 1st Bldg went down - generators start
automatically
each generator 27 minutes w/o need add'l fuel
don't need electric

daylight in bldg - exit on Washington

Vent on top + 5th floor - sucking in
jammed generators

Secret service on 10th

City people left 1st -

No tunnels in 7 WTC

Repeater system -

generators kept it going
radios worked

Mayor was
in 75 Barclay

home at 5pm

everything
behind
us

go to 101 Barclay
then the 2nd Bldg fell
running
North -
cloud chasing it
debris buses falling
back full of dust

-3-

7 would have collapsed anyway due to fires
50,000 gallons # 2 diesel fuel
20,000 gallons of coolant

fires before bldg collapsed -
colorful flames - fuels + gases
colors when you looked out cafeteria

Dept of Labor - Beckley West Va
class

each local labor union - hometown - put
clothes on

NY far ahead

Pete Mulroy

Emily Walker Mark

1-5-04

Project
Research
Postion

items in smaller bag - heard boom

floor 44 8:45 - windows south side
view

called Greenwich Street - SSB

it was a jet - paper fluttering, smoke
took the elevator

they were working →

certificate
1-800

cafeteria - no one checked who went in -

Silverstein picked up people at exit doors cafeteria - 4th floor
street level → fell on deaf ears

1000 people at lobby level -

both landlord + SSB used advantage security

keep people from going up elevators -

people behind desk - needed 2 phones open

bomb scare - 2 up 2 down
curzory search
police dept

> now there's
more training

Now evacuation training + fire training
one doesn't count for both

THANKS - TUES
London
Pete Mulroy

windows cracked 47th - fitness center

property mgr NOT there that day

setting up trauma

Mike Sharp - IBD - said he thought they'd fall

Fire Safety desk - announcement NOT made
8:53

do NOT have capability to make announcement

Shaun O'Keefe at fire console - nothing made

OEM at the bldg

asked for a bullhorn

Trying to do it as a team

SSB were coming down
already -
panic - some

↳ just didn't happen

↙ Said he made an announcement
to NOT evacuate
after 2nd plane hit

people did their jobs as fire wardens

Washington Street promenade - A + B doors

Heath + Tom went out thru loading dock -
single messengers

people evacuated before South Tower collapsed -

2 console operators on 44 after everyone else out

↓ Should we evacuate
announcement ^{not} came over -
told people ~~to leave~~ ~~and~~ are walking down
the stairwell -
Could NOT tell them to evacuate

12:15 left the bldg - Pete

when tower fell -

DEM on 23rd floor — ^{→ Not from Silverstein} 26-47 evacuating

↳ asked SSB to help them evacuate the rest of bldg
he asked for a guard

then asked for chairs - trader coat room -

Setting up triage center - 2 nurses - lobby level -

then set up in loading dock

Silverstein

Turned off escalator -

Set up trail to get people out the bldg

Secret Service

DOD

Home Insurance

Diesel tanks thru-out the bldg - Tim had called

□
fire dept on those diesel tanks hooked up OEM
generator for power floor - 7+8 had tanks
SSB
our diesels in the loading dock
below ground

being PA immune from bldg codes - they could stick

Fire Dept said it was ok

→ with Pete when 1st tower collapsed
Mike Catalano - engineer -
homeland security
seminars set up -

Get his car

had alot of prbs w/ systems

back up ~~for~~ prep. mgt
Solomon - shared back up
Space w/ Silverstine

^{died}
Jim Corrigan - Silverstine - 8 person

Had to have cooperation

Multi-tenant - has to be communication

Hemill tells Amex if they are having a drill -
assembly points -

APPL-

1st Precinct Community Council - newsletter -

Fire Safety Directors Assoc of NY -
recommendations Post 9-11

Brookfield manages whole property - World Financial

Reliant on property owners

OEM - all on connection
get lots of scoop

Joe Marc

Rich Wilson - teaches on the side

Call box - ~~every~~ every other floor
didn't work - mgt has to make a decision
to repair or remove

measure it ~~it~~

7 had lines in the bldg
