- *Length of stay for B1s:* was there a standard length of stay given pre 9/11? Was that a port decision, or national operating policy? If you gave less than the standard time, were there professional repercussions? If more than 30 days, why and ask for supporting documents. 30 days – up to 1 year; more gets supervisor's approval. Ask for letter on why they want more than 30 days.
- *Length of stay for B2s:* was there any discretion in length of stay granted B2s pre 9/11? 6 months. Need extension for more than 1 year.
- *Processing time at Atlanta:* was there a standard processing time?  – answer: not sure;  Any professional repercussions if did not meet that processing time? Don't think so. Question as far as delays from supervisor and airlines.

- **Jarrah's primary inspection.** (show documents).
- Where do you normally work?
- Where were you working on April 13, 2001? Only by record.
- Do you recollect Jarrah (did not DOJ OIG interview)? No.
- Please describe how you conducted the inspection and what transpired, to the best of your recollection.

Would the fact that Jarrah had been in and out numerous times affected adjudication?
Not really. Don't recall. Ask how long stayed last time. Wouldn't give 3 ½ months without documentation showing needed it.

What if you'd known he'd been a student and was done and still coming in and out?
The required visa would have been an M1. Difficult to say because continuing education can be a B1. As far as his purpose, he would be required to get a M1 visa – lying in the past would be enough. Any entry after first illegal entry is an illegal entry.

Why would you admit for three months?

Changes at DHS.

- What changes do you see on the front line with the new CBP? Provided more information through system; more lookouts; more in depth with inspectors; no pressure on
- Are you familiar with National Targeting Center? Yes. Very helpful. Have pulled aside suspected terrorist! FBI takes over.

- What effect has US VISIT had on entry and the inspection process? Outstanding. Intimidates v. fraud. Negative information through biometric and visa sub. Catching criminals.
- Use and value of SEVIS. Very good.
- Adequate access to DOS visa via the Consular Consolidated Database.
- If you had a message for Commissioner Bonner what would it be? We are vastly improved with CT and criminals and we've done a great deal and work together to provide information. If we had this information pre 9/11, could have stopped them.

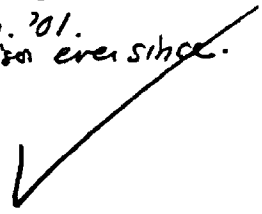

Would stolen passport numbers be helpful? Yes.

Good to have electronic based document fraud; Redbook updated and online.

wrong inspector, retired that # in Jan. '01.
been supervisor ever since.
